# Tejas Govind Ambore

7498263185 - tejasambore2003@gmail.com - Amravati, MH Linkedin - GitHub - LeetCode

#### **PROFESSIONAL SUMMARY**

Results-driven Software Engineer with strong expertise in **frontend and backend development**. Proficient in **JavaScript, HTML, CSS**, and modern frameworks like **React.js**. Adept at building scalable backend systems with **Node.js**, **Python**, and **Java**, and experienced with **SQL** and **NoSQL databases**. Demonstrates a strong foundation in **REST API design and integration**, with a proven track record of solving complex technical challenges. Committed to delivering high-quality, performance-optimized software solutions.

#### **TECHNICAL SKILLS**

- Programming Languages: JavaScript (ES6+), Python, Java
- Frontend Development: React.js, Angular, HTML5, CSS3, Bootstrap, Tailwind CSS
- Backend Development: Node.js, Express.js, Spring Boot
- Databases: SQL (MySQL, PLSQL), NoSQL (MongoDB)
- API Development: RESTful APIs, Axios
- Version Control & Build Tools: Git, GitHub, Maven, npm, Webpack
- Other Skills: Problem-Solving, Debugging, Troubleshooting, Collaboration

#### **EXPERIENCE**

#### Software Development Intern | Octanet Services Pvt Ltd

07/2024 - 08/2024

- Developed responsive and dynamic user interfaces using React.js, adhering to best practices in frontend development.
- Integrated **REST APIs** for seamless data flow between frontend and backend.
- Enhanced performance and scalability through Redux-based state management.
- Conducted code reviews and collaborated with teams to resolve critical bugs.

### Frontend Developer Intern | Cognifyz Technologies

06/2024 - 07/2024

- Created reusable, modular UI components using Vue.js and TypeScript.
- Developed backend features with Node.js, integrating a MongoDB database for data persistence.
- Improved application performance through debugging and code optimization.
- Documented features and collaborated with team members to troubleshoot issues.

#### Software Development Intern | Web Stack Academy

02/2024 - 04/2024

- Designed and developed full-stack web applications using React.js and Node.js.
- Integrated RESTful APIs for efficient client-server communication.
- Debugged and optimized backend logic, improving performance by 20%.
- Set up CI/CD pipelines to streamline the deployment process.

#### **EDUCATION**

# Bachelor of Engineering (B.E.) in Computer Science

Takshshila Institute of Engineering & Technology, Amravati

08/2020 - 06/2024 | CGPA: 7.14

# **ACADEMIC PROJECTS**

- 1. **Homely-Hub -** (*MongoDB, Node.js, Express.js, React.js, Bootstrap*)
  - Developed a full-stack application with a responsive UI and implemented JWT for secure user authentication.
  - Designed a task management system with role-based access control and secure authentication.
  - Implemented **Redux** for state management and integrated **REST APIs** for backend communication.
- 2. Easy Furnish (React.js, Node.js, Tailwind CSS)
  - Built a visually appealing e-commerce UI optimized for mobile and desktop devices.
  - Integrated backend features to facilitate product browsing, cart management, and dynamic data handling.
  - Followed clean coding practices and implemented state management for seamless navigation.
- 3. Task Tracker Dashboard (React.js, Redux, Tailwind CSS)
  - Designed a dashboard for managing tasks with backend support for real-time updates.
  - Followed clean coding practices and implemented robust state management for seamless navigation.
  - Implemented efficient state management to ensure smooth user navigation and cart functionality.

#### **CERTIFICATIONS**

Full-Stack Web Development (React & Node.js) – Udemy (2024)
Front-End Performance Optimization – freeCodeCamp (2024)
React.js Fundamental, CSS, JavaScript – Great Learning (2024)
JavaScript, Tailwind CSS, Node.js – LetsUpgrade (2024)
Full-Stack Web Development – GeeksforGeeks (2024)
JavaScript & TypeScript Crash Course – Udemy (2024)

React Development – Coursera (2024)

Git / GitHub, JavaScript, SQL, Java – Geekster (2024)

React.js for Beginner – SimpliLearn (2024) MongoDB Toolkit – GeeksforGeeks (2024)

JavaScript & ES6 Crash Course – Udemy (2024)

CSS and JavaScript Crash Course - Udemy (2023)
